Projects

React Text Converter   *React.js*

PERSONAL WEBSITE   *Github*

- A user-friendly tool for quickly and easily manipulating text.
- Offers features like changing case, clearing content, copying text, and switching to dark mode for better viewing.
- Integrated an alert system to notify users of activities performed within the app, enhancing the user experience.

Text Converter App 🔗

Weather App   *HTML5, CSS3, JavaScript and Weather API*

LIVE WEATHER REPORTS   *Github*

- Built an interactive weather web app that displays real time weather information of the city.
- User can see real-time weather conditions, current temperature with max & min temp. of the day, pollution AQI, rainfall, wind speed & wind direction, and local date & time of the city.
- It is responsive across the various screens such as Mobile, Tablet, Desktop.
- **weather-app** 🔗

Portfolio   *HTML5, CSS3, JavaScript, React.js, Node.js*

PERSONAL WEBSITE   *Github*

- Built an impressive portfolio website to display my personal web project's.
- Added contact functionality to contact me by LinkedIn, GitHub, Instagram.
- It is responsive across the various screens such as Mobile, Tablet, Desktop.
- **portfolio-app** 🔗
